Hi there :) nice to e-meet you, I'm Callum. I've been working really hard on my coding skills. It's the problem solving side of things that I really like. I'd jump at the chance to join a team and learn everything I can. I'd be thrilled to hear from you, if you give me a call and I miss it, I'm sorry! I'm likely working but I'll be sure to get back to you as soon as I can.
